

DISPSOTECH - LACES CAP

COLOR:  

CODE: NWCTIAZ100PER

DESCRIPTION: Disposable cap made of polypropylene TNT18 g/m2. These caps are ideal to prevent hair from falling down, creating potential hygienic threat to sterilised environments. Wearing them is fast and easy and, once used, they can be disposed of in a moment.

DISPOTECH - EJECTOR 15CM

CODE: AP100TBD

DESCRIPTION: non-sterile disposable saliva ejector, made of non-toxic material. The incorporated metallic thread allows the saliva ejector to maintain a stable and precise shape. The special shape of the cap guarantees excellent suction, preventing any damage to the patient's mucous membranes.

DISPOTECH - BIBS IN ROLL

CODE: 50 X 60 X 80
50 X 80 X 80
50 X 60 X 60 -
MA1030PER

DESCRIPTION: Protective disposable bibs in roll made of pure cellulose wadding. They are composed by 1 voile of paper and 1 voile of polyethylene. Very soft and comfortable, ensuring an excellent protection. They guarantee the perfect rip of bib and laces and they are also characterised by great absorbency and impermeability.

DISPOTECH - NAPKINS 33X45CM

CODE: T02AZFPPER

DESCRIPTION: Plasticised, folded, absorbent and impermeable Dispo NAPKINS. They are composed of 1-ply pure cellulose tissue coupled to 1 layer of polythene and 2-ply pure cellulose tissue coupled to 1 layer of polythene.

DISPOTECH - BIBS DISPENSER

CODE: DISPMANT

DESCRIPTION: A Practical plastic container designed to keep in place your disposable bibs with an elegant and smart solution. The container features a wall support and is created to optimise the use of the tear-off disposable bibs roll DISPO TECH BIBS.

DISPOTECH - CUPS

CODE: BC180CCMIX

DESCRIPTION: High-strength polystyrene cups specifically for the dental sector. Available in different colours: light blue, orange, yellow, lilac, white, pink, blue and green.

● Dental Disposable Products

DISPOTECH NAPKINS HOLDER

CODE: CA01INLINE

DESCRIPTION: Practical and useful tool to keep **disposable napkins** in place, ready to be used by your patients. The product is made of metal and has closure clips to help keeping disposable napkins together.

DISPOTECH - HAEMOSTATIC SPONGE

CODE: CU101024

DESCRIPTION: This **dental sponge** is made with spongy cubes of **haemostatic, sterile pork gelatine**, specially designed for the **dental sector**. These **dental sponges** are perfectly **reabsorbable** and are generally used to aid **cicatrization** after surgical procedures or extractions.

DISPOTECH - COTTON ROLLS

CODE: RL301PER

DESCRIPTION: pure, non chlorinated, long fibre cotton (fibre length 11-13 mm). They are highly absorbent (over 20g/g) and do not dissolve in water. Their fusion point is at 400°C.
